

## Maximized and Empowered: Enabling Cost Efficiency for Client's Azure Workspace Services

*How we achieved a 50% cost reduction, including over \$600,000 in savings*

This client provides intelligent global solutions and technologies for customer and team engagement, unified communications, collaboration, contact center management, customer experience management, and networking.

### Challenges

The client offers a product that provides workspace cloud services to their customers, hosted on the Azure Cloud Platform. This was distributed across multiple Azure subscriptions and utilized a range of Azure services, including Advanced Threat Protection and Azure App.

Increasing infrastructure costs while offering this solution

Difficulty in identifying the specific areas contributing to the high costs

Inefficiencies within the Azure environment needed to be identified & addressed

### Solution

With Xoriant's specialized expertise in Azure and cloud technologies, the client sought assistance to optimize their Azure environment and bring down expenses. We responded by establishing a dedicated FinOps POD team to thoroughly assess the client's Azure environment.

#### Conducted

Detailed evaluation of the Azure environment, subscriptions and services to examine resource utilization

#### Identified

Unused resources, excess storage and conducted a root cause analysis to investigate other factors

#### Provided

Ongoing tracking of the impact on infrastructure costs and identified further opportunities for cost reduction

#### Removed

Unnecessary VMs and other idle resources to eliminate waste

#### Allocated

Computing resources to better match actual usage and demands and optimized storage solutions

#### Implemented

Strategic cost reductions for Security Center and Sentinel services without compromising security

### Business Value

#### Slashed

50.9% in costs amounting to over \$480,000 from April to December

#### Saved

Over \$400,000 in costs from Workspaces-Integration

#### Saved

\$200,000 in costs from Workspaces-TEST

### Technology Stack

**| Azure App Service | Azure Database for PostgreSQL | Azure DDoS Protection and More**

Xoriant provides advanced technology solutions and software development services for global banks, software product companies and F500 market leaders. Based in the U.S. with 18 global offices and 5000+ engineering professionals, Xoriant demonstrates exceptional experience in banking and finance infrastructure modernization and cloud migration. We deliver expert digital engineering, as well as offsite and offshore services, across high tech, healthcare, pharma, industrial manufacturing, telecom, and automotive sectors. Customers credit technological innovation and delivery excellence for our shared success over three decades.
