Xoriant is a Sunnyvale, CA headquartered digital engineering firm with offices in the USA, Europe, and Asia. From startups to Fortune 100, we enable innovation, accelerate time to market and ensure client competitiveness across industries. Across all our focus areas – digital product & platform engineering, experience design, data engineering and IoT – every solution we develop benefits from our product engineering DNA and culture of innovation. It also includes successful methodologies, framework components, and accelerators for rapidly solving critical client challenges. For 30 years and counting, we have taken great pride in the long-lasting, deep relationships we have with our clients.
