EAI FOR A LEADING LIFESCIENCES COMPANY

CLIENT OVERVIEW

The client is globally recognized as the leading provider of web-based resources and information to the life science industry. For 20 years, the client has helped to accelerate communication and discovery among business and scientific leaders in the biopharmaceutical market. The client has a well-established site infrastructure and loyal online audience of over 1 million unique monthly visitors.

KEY REQUIREMENTS

- The client had a goal to devise an Integrated B2B solution to achieve Inter Enterprise Order Integration with their Suppliers.
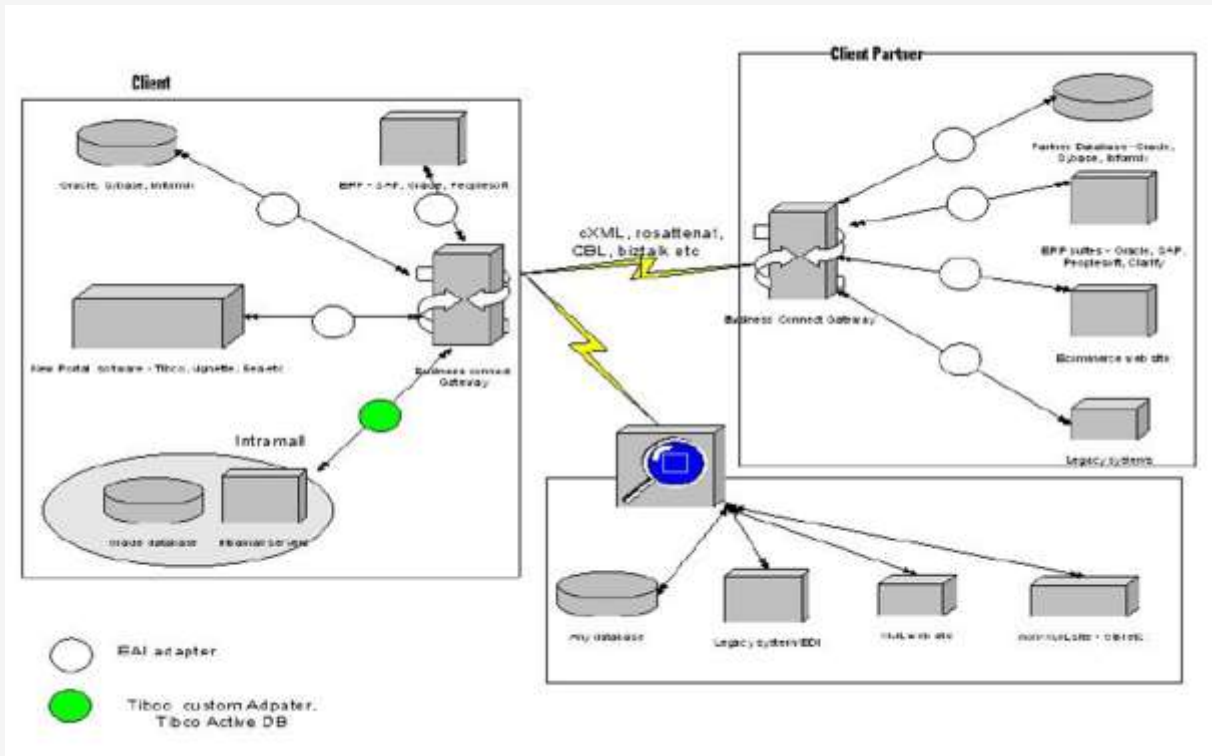

KEY CONTRIBUTIONS

- Xoriant studied the client's Business processes and came up with a equirements Analysis document to highlight their business and technical needs to achieve the goal. Xoriant documented in this document the client's Integration B2B model.
- Xoriant in parallel has devised a prototype solution using Tibco products in their in house labs based on the needed model by the client. Tibco ActiveEnterprise is used for EAI between their tailor-made ecommerce application and the Tibco ActiveExchange Business Connect application.

KEY BENEFITS

- Xoriant deep EAI and B2B expertise enabled faster deployment , with rapid ROI

- Use of Xoriant Lab work helped the client realize a production solution in Demo

- Ability to easily incorporate different ERP systems and additional suppliers into the system allowed the client to expand processes without reworking infrastructure
